

Hot Tapping

“No downtime for new connection point with our Hot Tapping”

About Pace

For over 46 years, PACE has been a trusted provider of high-quality and reliable compressed air solutions, from machinery to service and sourcing, for industry leaders in various sectors including automobiles, glass, textile, cement, packaging, chemicals, steel, metals, pharmaceuticals, and food & beverage.

Product Description

Hot tapping allows for addition of a connection point on active pressurized pipelines in industrial settings without shutting down flow, saving time and money.

The procedure includes attaching a hot tap machine, drilling a pilot hole, enlarging the hole, installing a valve and returning the pipeline to normal operation.

Why is the product Required

Performing maintenance on a pressurized pipeline without shutting it down is costly and time-consuming, causing potential loss of revenue, shutdown costs, and disruptions in production.

Offering as a service

PACE offers Hot Tapping as a service, providing equipment and skilled personnel on-site to perform the process without interrupting operations, saving time, money, and resources.

We'll help you find the right solutions for your business

Product Range

- PACE offers Hot Tapping product, including an accurate **Drilling device that enables precise**, under pressure drilling on pressurized pipeline systems without shutting down the flow of compressed air.
- Our product range includes **spot drilling collar for compressed air lines in a variety of diameters, from 32 mm to 220 mm, with a drill that creates a hole of ½ inch, ensuring no downtime** and making it suitable for a wide range of applications. This device is designed to handle pressures up to 10 bars

Benefits

Hot tapping for addition of a connection point on active pressurized pipelines without interrupting flow, saving time and money, minimizing production disruptions, and facilitating easy addition of new lines and branches to existing pipelines.

Other Solutions

Compressed Air Dryers | Filters | Drain Valves | Dehumidifiers | Crane Cabin A/C | Moisture Separators | Accessories & Spares | Sourcing | Testing & Certification | Servicing & Commissioning
