

# Servicing & Sourcing

“Maximize equipment efficiency and reliability with regular dryer & filter servicing”

## About Pace

For over 46 years, PACE has been a trusted provider of high-quality and reliable compressed air solutions, from machinery to service and sourcing, for industry leaders in various sectors including automobiles, glass, textile, cement, packaging, chemicals, steel, metals, pharmaceuticals, and food & beverage.

## Product Description

### Servicing

Regular servicing of **compressed air dryers and filters** ensures proper function, prolongs equipment life, and guarantees consistent high-quality air.

Common tasks during servicing include inspecting the air filter, replacing filter elements, inspecting the desiccant, checking and adjusting the refrigerated dryer, checking the complete refrigeration system, and checking for leaks.

### Sourcing

PACE offers specialized support in sourcing equipment, systems, and spare parts not within our standard range.

Our extensive network and industry expertise allow us to secure hard to find components and minimize disruptions to clients workflow.

We'll help you find the right solutions for your business

## Why is sourcing required

Sourcing is essential to avoid :

- Production restrictions
- Reduced efficiency
- Increased downtime
- Revenue loss
- Loss of customer satisfaction.

It helps to :

- Minimize disruptions
- Stay competitive
- Ensure businesses have necessary resources for efficient and effective operations.

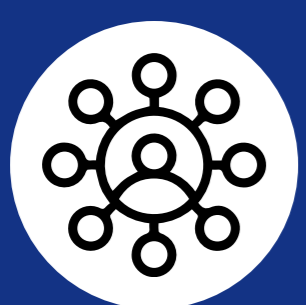

## Why is servicing required

Neglecting regular maintenance of a compressed air dryer and filter can lead to :

- Reduced efficiency
- Contaminated air
- Increased costs
- Equipment failure.

This can result in:

- Reduced productivity
- Increased downtime
- Loss of revenue
- Loss of end product quality

## Our Capabilities

PACE is a leading provider of compressed air dryers and filters, with 40+ years of experience and services for all brands, including commissioning, servicing, repairs, and maintenance.

We handle upto 24,000 m<sup>3</sup>/hr dryers and provide high-quality original spare parts and efficient, timely service.

Personalized solutions for all compressed air needs.

## Benefits

### Regular Servicing Of Compressed Air Dryers And Filters Ensures:

- Efficiency
- Improves air quality
- Reduces energy costs
- Prolongs equipment life
- Reduces downtime
- Saves money
- Ensures compliance with safety regulations.

### Servicing Is Essential For :

- Maintaining equipment reliability and performance
- Providing consistent, high-quality

## Other Solutions

Compressed Air Dryers | Filters | Drain Valves | Dehumidifiers | Crane Cabin A/C | Moisture Separators | Accessories & Spares | Sourcing | Testing & Certification | Servicing & Commissioning
