

Dehumidifier

“Control humidity, improve air quality and productivity”

About Pace

For over 46 years, PACE has been a trusted provider of high-quality and reliable compressed air solutions, from machinery to service and sourcing, for industry leaders in various sectors including automobiles, glass, textile, cement, packaging, chemicals, steel, metals, pharmaceuticals, and food & beverage.

Product Description

Our Dehumidifiers are cost-effective appliances that improve air quality and comfort by removing excess moisture.

Available in desiccant versions, they effectively control humidity in commercial and industrial settings.

Our dehumidifiers effectively reduce humidity in a space by drawing in moist air and passing it through a desiccant wheel, which adsorbs the moisture. The now dry air is then circulated back into the room for improved air quality and comfort.

Why is the product Required

- Don't let common causes of moisture wreak havoc on your indoor environment.
- Invest in a Dehumidifier now to prevent costly repairs and protect your health and other systems.

Act fast before it's too late!

We'll help you find the right solutions for your business

Where does moisture come from

Moisture in indoor environments can be caused by **high humidity, leaks, poor ventilation, and condensation** due to warm, humid air and cold surfaces.

Product Range

- PACE offers a comprehensive range of desiccant dehumidifiers that are engineered to **deliver exceptional effectiveness, versatility, and reliability.**
- These dehumidifiers are ideal for high humidity environments with stringent low dew point and dryness level requirements and are perfect for **facilities with stringent hygiene requirements, including food processing and pharmaceutical production.**

Dehumidifier

Benefits

Invest in a Dehumidifier today and

- **Improve** indoor air quality,
- **Lower** energy consumption,
- **Extend** the life of mechanical systems, and
- **Prevent** product deterioration and damage.

It's a **cost-effective solution for controlling humidity** levels in your home or business.

Other Solutions

Compressed Air Dryers | Filters | Drain Valves | Dehumidifiers | Crane Cabin A/C | Moisture Separators | Accessories & Spares | Sourcing | Testing & Certification | Servicing & Commissioning
